EDUCATION

University of Central Florida, Orlando, FL — August 2025 - May 2027
Master of Arts, Digital Media
Studio Track

University of Florida, Gainesville, FL — August 2021 - May 2025
Bachelor of Science, Computer Science
GPA: 3.85
Minors: Mass Communications, Digital Arts & Science

PROFESSIONAL EXPERIENCE

University of Central Florida, Orlando, FL
Graduate Teaching Associate — May 2026 - Present
Graduate Teaching Assistant — August 2025 - May 2026

- Instructed undergraduate courses through lectures, discussions, and course activities
- Assessed assignments, projects, and exams, providing constructive feedback to support student learning
- Collaborated with faculty to uphold course objectives, academic standards, and student success

UF College of Medicine Office of Research, Gainesville, FL
UI/UX Designer — May 2025 - Present
Student Assistant UX Technical Specialist — August 2024 - May 2025

- Designed intuitive user interfaces through Figma for data visualization products.
- Collaborated with the team to ensure seamless integration of design elements into the final product.
- Developed and optimized front-end components of applications, working with JavaScript, CSS, and TypeScript to implement design solutions and improve brand consistency.
- Managed undergraduate students in developing UI/UX design skills

Cvent, Tysons Corner, VA
Product Design Intern — June 2026 - August 2026

- Owned the end-to-end design process for the Attendee Record feature in Cvent's Event Core platform, from research and ideation to prototyping, usability testing, and presenting final recommendations.
- Designed within Cvent's Carina design system, adapting work during the company's rebrand to deliver consistent, scalable, and accessible experiences.
- Collaborated with product managers, engineers, and designers to iterate on solutions based on user feedback throughout the design process.
- Worked with a cross-functional intern team to identify a product pain point and propose a UX solution, creating a high-fidelity interactive prototype for the final presentation.

ACTIVITIES

Women In Computer Science and Engineering (WiCSE)
Design Team Lead — August 2024 - April 2025

- Led a team of 5 developers in the full-stack development of a mobile application.
- Conducted weekly meetings to ensure progress and encourage collaboration.
- Coordinated individual and team responsibilities for an effective and collaborative development process.

Professional Shadowing Mentee — January 2024 - April 2024

- Worked alongside a mentor in the professional field to gain experience and knowledge.
- Developed an individual technical project throughout the semester with advice from a professional mentor.

SKILLS

Programming Languages: Javascript, HTML/CSS, Typescript
Developer Tools & Frameworks: Figma, VS Code, GitHub, React.js
